COMPOSITES EUROPE
14th European Trade Fair & Forum for Composites, Technology and Applications
WE CONNECT – MATERIALS AND EXPERTS
10 – 12 September 2019
Messe Stuttgart, Germany
www.composites-europe.com
EXHIBITOR BROCHURE 2019
WELCOME TO COMPOSITES EUROPE 2019 IN STUTTGART

We connect – Materials and experts

COMPOSITES EUROPE is the process-oriented, efficient year-round B2B-platform for the entire composites industry and the main application industries within the DACH region (German speaking countries).

COMPOSITES EUROPE is promoting and showcasing materials, processing technologies and products from the entire value chain: from raw materials, machineries to semi-finished and finished end-user products. COMPOSITES EUROPE is the place to access and develop new target groups, especially processors and engineers from various application industries: automotive, aerospace, machines, building and construction and infrastructure. Make use of the Process Live format, the Lightweight Technologies Forum and the “International Composites Conference” to present your innovative solutions and latest trends in the additional show program.

It is a sourcing platform within easy reach where producers, processors and technology suppliers meet buyers, engineers, researchers, decision makers and investors linked with composites efficiently supported by the organizer’s matchmaking and guided tours. Its proximity to the automotive, aerospace and building industries, as main drivers of the composites industry, gives the trade fair an additional boost.
WHOLE WORLD OF COMPOSITES

The COMPOSITES EUROPE trade fair presents the entire value chain and the whole world of composites – including research, application and plenty of exciting prospects for the future. Whether new processes for automated production, large-scale manufacturing or recycling solutions – the combination of complex topics and leading experts makes COMPOSITES EUROPE an ideal venue to gain a practical impression, a forum of the future and a networking platform all under one roof.

You can look forward to a top-class meeting of composites specialists, including relevant decision-makers from the following fields:

Automotive • Aerospace • Mechanical engineering

Sport and leisure • Construction and infrastructure
Marine and shipbuilding • Medical

Electrical and electronics • Transportation • Industrial equipment
Pipes, tanks and housings • Defence and security • Wind energy
Consumer products
VISITOR STRUCTURE ACCORDING TO INDUSTRIES

- **Research and Development, Construction**: 39%
- **Management**: 13%
- **Sales, Marketing**: 13%
- **Manufacturing, Production, Quality Control**: 8%

**8,148 visitors from 70 countries**

- **70% national**
- **30% international**

**Decision-makers**: 83%

**Investment plan**: 40%

COMPOSITES EUROPE, its concept is clearly specialized for composites and the scale of the event is optimal to be found by potential customers. The most attractive thing for us is to be able to find serious customers who visit us with his clear target. These are outstanding benefits of this exhibition compared to the other event. The visitors come from everywhere, Europe, Asia Russia and middle east who are active in aerospace, automotive, military sectors and so on. We definitely got back what we invested for. I look forward to joining COMPOSITES EUROPE next year.

### EXHIBITOR STATEMENTS

„At COMPOSITES EUROPE, we made many very interesting contacts. Especially in mechanical engineering, fibre composites and CFRP are attracting more and more interest, which was also reflected at the trade fair. We have noticed a further development with regard to the Asian market: we had many good contacts from the entire Asian region here. The market is becoming more and more international.”  
Ralph R. Hufschmied, Management at Hufschmied Zerspanungssysteme GmbH

“COMPOSITES EUROPE is of great importance to us. We use the trade fair to present our technologies, machinery and plant solutions and to hold discussions with customers as to which technologies will be favoured for specific components in the future and where the journey will take us.”  
Christian Wolfsberger, Business Development Lightweight Composites, ENGEL Austria GmbH

MEDIAL REACH 2018

More than 700,000 contacts media reach

Advertisement insertions in 57 trade publications within the industry (national/ international)

Content newsletter to around 10,500 subscribers + specials

Callcenter activities with 2,923 contact persons

Address purchases > 20,000

Social media performance campaigns with more than 490,739 impressions

> 250,000 Online media reach through banner

About 8,000 follower

Print campaigns to 56,600 recipients

Intensive social media coverage prior to and during the show
WHY PARTICIPATE

TOP ARGUMENTS IN FAVOUR OF COMPOSITES EUROPE 2019

Here are the best reasons for you to be present at
THE business platform in Europe’s most important composites
market. For yourself, your team and your company.

At the COMPOSITES EUROPE...

...you will meet experts and leading decision-makers from the
composites core market of Germany, Austria and Switzerland as
well as the whole of Europe at one single venue.

...you can present yourself on the market and attract over 9,000
visitors, make your brand tangible and increase brand awareness.

...you can gain new insights into current trends and innovations
in the composites industry.

...you can grow your business by making new contacts
and maintaining existing relationships.

...you can benefit from unique networking opportunities with a
high-ranking audience of experts from the composites industry.

...you can obtain and gather valuable information about
your competitors’ products.

...you can play a crucial role in shaping the composites
industry as a specialist in research and development.
The COMPOSITES EUROPE 2019 not only offers you attractive booths, but also the opportunity to work on innovation areas and product presentations to showcase your new products and processes live. Excellent contact possibilities guaranteed.

NEW COMPOSITES Process live
The new, exclusive presentation option for all companies offering fiber processing and processing reinforced plastics. In Focus: Processes within the value chain made visible to the visitor - show, explain, optimize.

These special advantages are offered by COMPOSITES Process live:
- **Visibility**: You benefit from target group-oriented addressing the visitor with a process area adjacent to your stand.
- **Competence**: Show and explain processes and help the visitor to gain a sustainable understanding of the matter.
- **Business**: Generate new or expanded business through concrete questions about your presented process.
THEMATICALLY LINKED: CONFERENCE AND FAIR

5. INTERNATIONAL COMPOSITES CONFERENCE (ICC)

NEW in 2019
- Parallel to the fair
- Three instead of two days
- Flexible ticket structure
- Theme areas at the fair

Topics excerpt:
- Smart Composites (Bio-Composites + Processing Technologies)
- Applications (Thermoplastics + Thermosets)
- Markets (New Mobility + Building & Construction)
- Future Challenges (Regulations + New Applications)
- Composites Science (R + D Updates + Young Innovators Solutions)

More information: www.composites-conference.com

Content Lead: Wirtschaftsvereinigung Composites Germany
Organization: Reed Exhibitions Germany

SYNERGIES FOR VISITORS: ONE TICKET – TWO TRADE FAIRS

FOAM EXPO – parallel to COMPOSITES EUROPE

NEW in 2019
Foam Expo Europe, Trade Fair and Conference for the Supply Chain the technical foam production, will take place in parallel to the COMPOSITES EUROPE.

Especially for visitors of the common application industries offers the joint exhibition date thematic synergies. All visitors are allowed to visit both fairs with one ticket.

A common program links both events, e.g. through guided tours of the fair and thematically appropriate lectures.

LIGHTWEIGHT FOR ALL: MULTIMATERIAL COMPETENCE FOR DEVELOPMENT AND PRODUCTION

FURTHER HIGHLIGHTS

Guided tours – potential business comes directly to your stand!
The competent guided tour of the exhibition on innovative topics. Trade-Fair guides bring interested visitor groups to selected exhibition stands.

Matchmaking B2B Meetings
COMPOSITES EUROPE matchmaking is the official business contact networking forum for professional visitors and exhibitors alike. Here you can search specifically for the right contacts, products and solutions online and find suitable partners.

Job & Career / career&composites
“Start networking and connect with your future!” – under this motto, the career&composites job wall at the COMPOSITES EUROPE 2019 presents exciting job searches and job advertisements!

Formula Student
The special area for budding talent in the industry – where students and trainees present race cars they have designed and built themselves. Our ‘wild young rebels’ look forward to hearing from interested people from the world of technology and business.

4. LIGHTWEIGHT TECHNOLOGIES FORUM
Leading platforms for inclusive, cross-material and hybrid lightweight construction.

- Impulses, ideas and initiatives across all material boundaries
- Inspirations and innovations of the key technologies
- Lightweight construction products and process solutions for the reduction of energy and material
- Lightweight lectures and panel discussions by and with experts

Thematic highlights:
- Automotive & Transportation
- Aerospace
- Construction
- Joining / joining technology
- Process technologies
- Special: natural fiber & bionics

WELCOME TO STUTTGART!

Right in the middle of the composites market. Centrally located with an ideally developed infrastructure, tailor-made for exhibitors and visitors alike:

- Airport directly at the site
- Direct suburban train connection
- Direct shuttle bus from the airport

Stuttgart: Per flight close from many locations in Europe.
